Declaration of decontamination

The **GefStoffV** comprehensively regulates the protective measures for employees who are involved in handling hazardous substances. The ordinance obliges hazardous substances to be classified and labelled according to their hazardous properties. To relieve you as a customer and to protect our employees, please make sure that the following declaration of decontamination is filled out carefully. If necessary, enclose the respective safety data sheets.

Measured samples (the device was in contact with the following substances)		
<input type="checkbox"/>	Radioactive substances <sup>3)</sup>	_____
<input type="checkbox"/>	Toxic substances	_____
<input type="checkbox"/>	Carcinogenic substances	_____
<input type="checkbox"/>	Infectious material <sup>3)</sup>	_____
<input type="checkbox"/>	Biological material	_____
<input type="checkbox"/>	Other dangerous material	_____

<sup>3)</sup> If devices have come into contact with one of these substances, the devices will only be accepted if a consultation with A.KRÜSS has taken place prior to submission.

Measurement samples sent enclosed (please pack with the maximum possible care and secure them against damage)			
<b>Name of the measurement samples sent along:</b>
